

Canopy Installation Manual

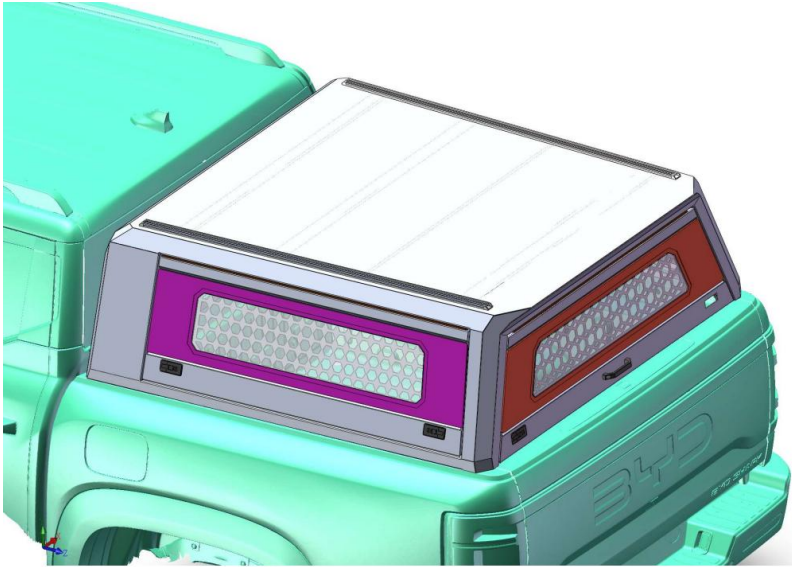

Please read the manual carefully to avoid damaging parts or the car. Thank you!

Step1: Stick the Rubber at the Bottom of the Canopy

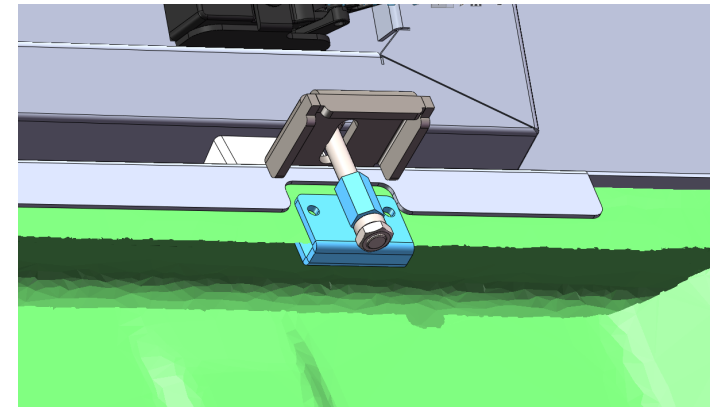

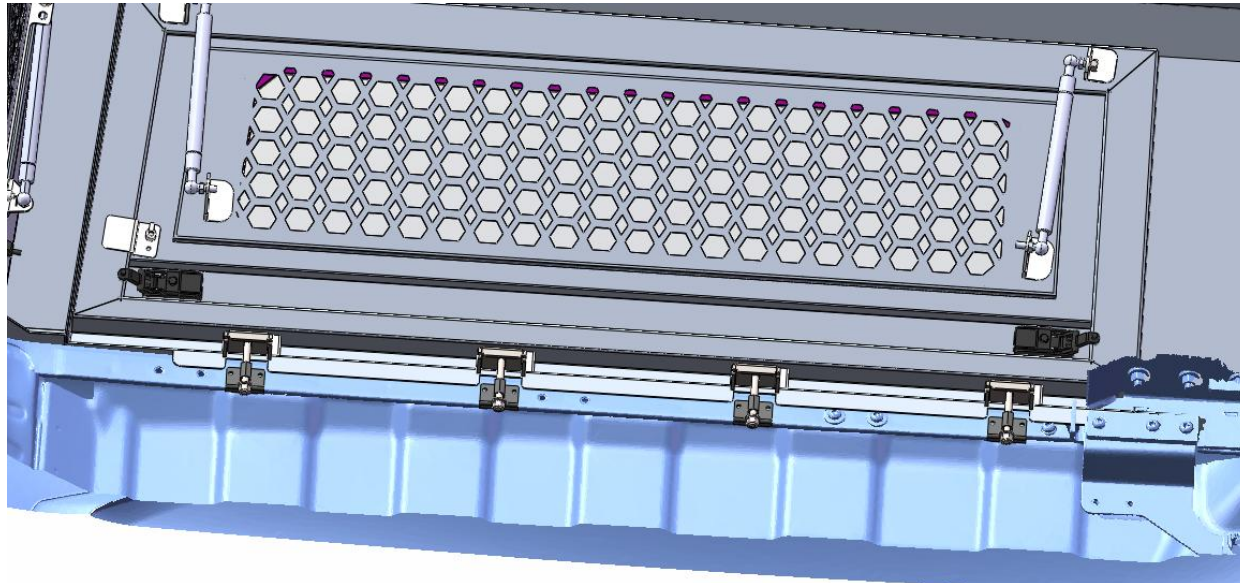

After the installation of the main structure is completed, use rubber to stick in the blue area as shown in the picture.

Step2: Install the Canopy on the Car

Use original holes or auxiliary buckles for non-destructive installation.

Fixed with M8 screws and anti loosening nuts.

Thank you for choosing our product!
